**SUMMARY OF FISCAL OPERATIONS OF THE CENTRAL GOVERNMENT
OF ST. VINCENT AND THE GRENADINES
For the period ended December 31st, 2016.**

The objective of this report is to present the public with a brief summary of the Government of St. Vincent and the Grenadines' fiscal operations, for the twelve - month period ended December 31, 2016.

Preliminary figures show that the Central Government fiscal operations for the twelve months of 2016 improved markedly when compared to the same period in 2015. Current revenue increased by 13.5 percent to \$589.37 million (4.4 percent above the budgeted amount), while current expenditure totaled \$530.17 million i.e. 3.4 percent more than the amount spent in 2015. Consequently, the current account recorded a surplus of \$59.20 million a significant improvement from the surplus of \$6.31 million recorded in 2015. The overall balance also improved appreciably moving from a deficit of \$38.81 million in 2015 to a surplus of \$11.47 million in 2016, as shown in the table below.

Table 1: Summary of fiscal operations for the year ended December 31st, 2016.

Revenue

Collections from Taxes on Income and Profits increased by 20.0 percent to \$155.58 million, this was significantly higher (12.3 percent) than the amount budgeted. This increase in revenue was due mainly to higher receipts from Individuals (10.3 percent) and Corporations (40.1 percent). Individual taxes were impacted by some degree of tax bracket creep resulting from salary increases paid to public servants in 2015 and 2016. Corporation taxes were more buoyant during the period but also benefited from a high level of arrears collection. Collections from taxes on Non-Residents increased marginally by 0.5 percent.

Collections from Taxes on Property grew by 55.5 percent to \$45.11 million. The main impetus for this growth was the collection of Alien Landholding Licence which moved from \$4.50 million in 2015 to \$10.91 million in 2016 due to increased land sales to non-nationals. Stamp duty on Property also contributed, growing by 49.1 percent to gross \$30.03 million over the period.

Figure 1:**Current Revenue for the year 2016 (with comparative figures for 2015 and 2014)**

Taxes on Goods and Services which totaled \$151.97 million, declined marginally by 0.7 percent during the year. This was mainly due to two factors, first an extraordinary amount collected for interest levy (\$6.0 million) in 2015 with no comparable receipt in 2016 led to a 35.0 percent reduction in this revenue sub-item. Secondly, on account of a timing issue with respect to the collection of revenue for Telecomm Broadcast Licence. Notwithstanding the above, higher receipts from VAT, Excise Duty (on Imports and on domestic transaction), and Motor Vehicle Licence helped to attenuate the decline in this revenue category. The greater collection from VAT, Excise Duty and Motor Vehicle Licence would have been partly aided by a number of revenue measures included as part of the 2016 budget. Additionally, VAT benefitted from the collection of arrears while Excise Duty (on imports) and Motor Vehicle Licence were also helped by a 36.0 percent increase in the number of imported vehicles over the period.

Revenue from International Trade Taxes which amounted to \$145.04 million was 9.6 percent higher than the amount collected for the corresponding period in 2015. Under this rubric Import Duty, Vehicle Surtax and VAT increased by 8.3 percent, 75.3 percent and 7.2 percent respectively. These performances were partly impacted by a modest 0.3 percent increase in the value of Merchandise Imports during the year, with the Vehicle Surtax being supported by an increase in the number of vehicles imported during the period.

Revenue from Sale of Goods and Services grossed \$60.92 million, which represents a 5.7 percent improvement on the amount collected in 2015. Drivers Licence which went up by 19.1 percent, to \$3.18 million was the main stimulus behind the improved performance of this revenue item. Drivers Licence was impacted by changes in rates and a significant increase in the importation of motor vehicles over the period. CIPO Registration Fees and Customs Service Charge declined by 6.7 percent and 0.6 percent respectively while receipt from IFS Fees fell by 6.7 percent due to a fall-off in registration of IBCs.

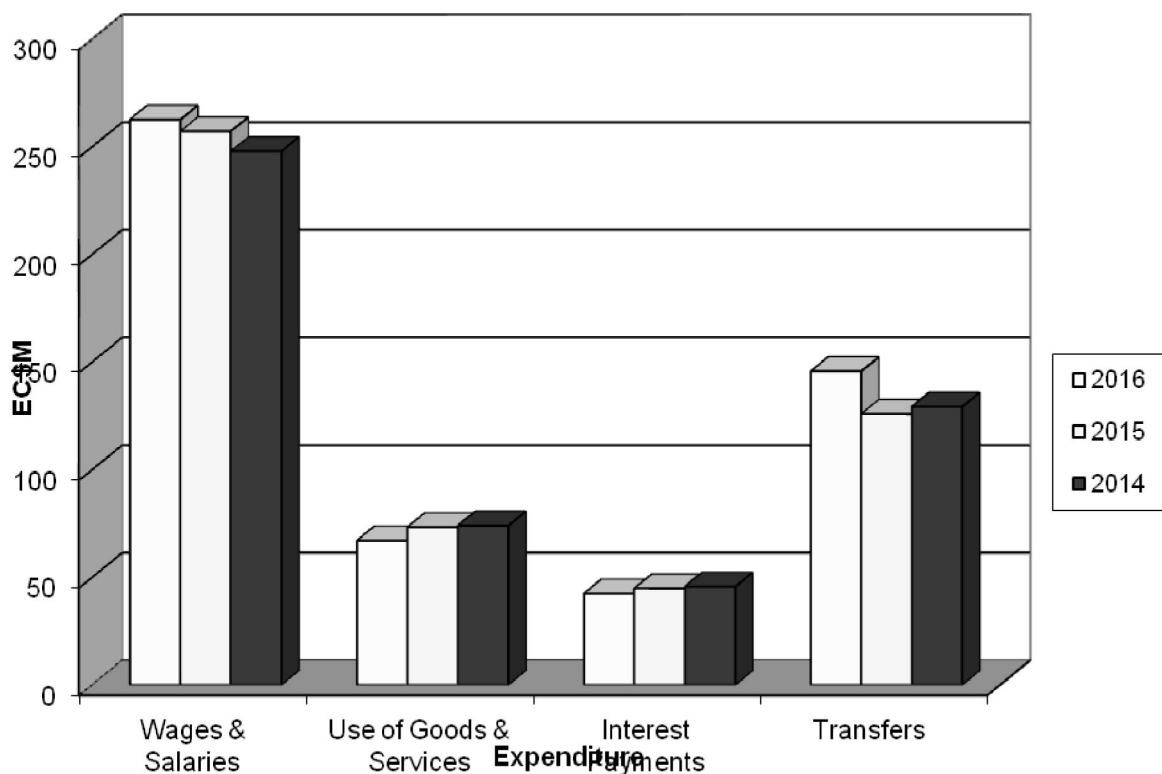

Capital inflows as at December 31st, 2016 declined by 58.2 percent to \$22.62 million due to lower receipt of Other Capital Revenue. In 2015 Other Capital Receipt rose significantly due to the recording of receipt from sale of lands in the Grenadines (earmarked for the financing of the International Airport) and fell significantly in 2016 as no land sales for this purpose was recorded. Grants fell by 25.8 percent to \$20.79 million.

Expenditure

For the year ended December 31 2016, Current Expenditure amounted to \$530.17 million. This figure represents an increase of 3.4 percent when compared to the amount spent in 2015. Payment of Wages and Salaries amounted to \$262.64 million and the Employer's Social Contribution of \$12.33 million. The 2.1 percent increase in spending on Wages and Salaries was mainly due to the 1.5 percent salary increase received by public servants and movements in increments and allowances during the period.

Figure 2: Items of recurrent expenditure as at December 31st, 2016.

Current Expenditure for the year 2016 (with comparative figures for 2015 and 2014

Outlays on Transfers increased by 15.7 percent to \$145.73 million based on higher amounts expended on Employment Related Social Benefits and Social Assistance Benefit. Employment Related Social Benefits went up by 11.4 percent to \$54.58 million chiefly due to an equivalent increase in the payment of Retirement Benefits, while social assistance benefit went up mainly because of increases in the rate paid for a number of social assistance programmes over the period.

Figure 3:**Current Fiscal Operations 2011-2016.**

Capital Expenditure for the twelve months of 2016 amounted to \$70.34 million, down 29.4 percent from the \$99.23 million recorded for the same period in 2015. This is partly reflective of the slow implementation rate on on-going capital projects. The major projects implemented during the year included the following:

	\$M
• Argyle Airport Development	30.904
• 10th EDF Modernisation of the Health Sector	7.072
• Regional Disaster Vulnerability Project	4.215
• AIA Capitalisation Fund	3.000
• Employment Support & Training Programme	2.247
• CARCIP Project	1.961
• Housing Rehabilitation Programme (Trough System)	1.180
• Low Income Housing Project	1.000
• Other Projects (less than \$1.0 million)	15.309

Financing
