Revenue

Receipts from Taxes on Income and Profits increased by 14.3 percent to \$27.19 million, with higher collections from all subcategories. The increase in Personal Income Tax of 1.0 percent is reflective of the recent salary enhancement received by public servants for the period July-December, 2018 along with the 1.5 percent for 2019. Corporation Taxes and Non-Resident (Withholding) Tax collections improved growing by 76.9 percent and 23.9 percent respectively. The Increase in Corporate Tax receipt was mainly on account arrears collected during the first quarter of 2019.

Revenue from Taxes on Property grew by 65.7 percent to \$6.07 million during the period. This resulted mainly from higher receipts fro Stamp Duty on Property (which went up by 76.7 percent) and Alien Land holding License (which amounted to \$0.46 million from \$0.22 million in 2018). Collections in the above categories reflect greater land sales during the quarter.

Figure 1: Items of Current Revenue as at March 31st, 2019

Taxes on Goods and Services which totaled \$43.24 million, increased by 21.9 percent as at 31st March, 2019. This was mainly as a result of the \$4.8 million collected during the period for Telecommunications and Broadcast Licence which was mainly related to activities in 2018. Additionally, Value Added Tax performed well as collections increased by 19.5 percent to \$23.24 million, but this was largely due to timing issues in the reporting of revenues for the first quarter of 2018. Greater receipts from Insurance Premium Tax (1.0 percent) and Motor Vehicle Licence (9.8 percent) also contributed to the growth in revenue from this tax type. The increase in revenue from Taxes on Goods and Services was however moderated by lower takings from Yacht Licence, Merchant Shipping (International) Fees and Interest Levy during the period.

Revenue from International Trade Taxes rose by 7.2 percent, to \$36.46 million. Under this rubric, revenue collection from all major subcomponents increased; VAT receipts went up by 4.7 percent, Import Duty increased by 8.6 percent and Vehicle Surtax grew by 31.7 percent. The Significant increase in Vehcile Surtax resulted from a 12.5 percent increase in the importation of vehicles along with an increase in rates applies to these vehicles consequent upon the 2018 fiscal measures (effective May 1st, 2018).

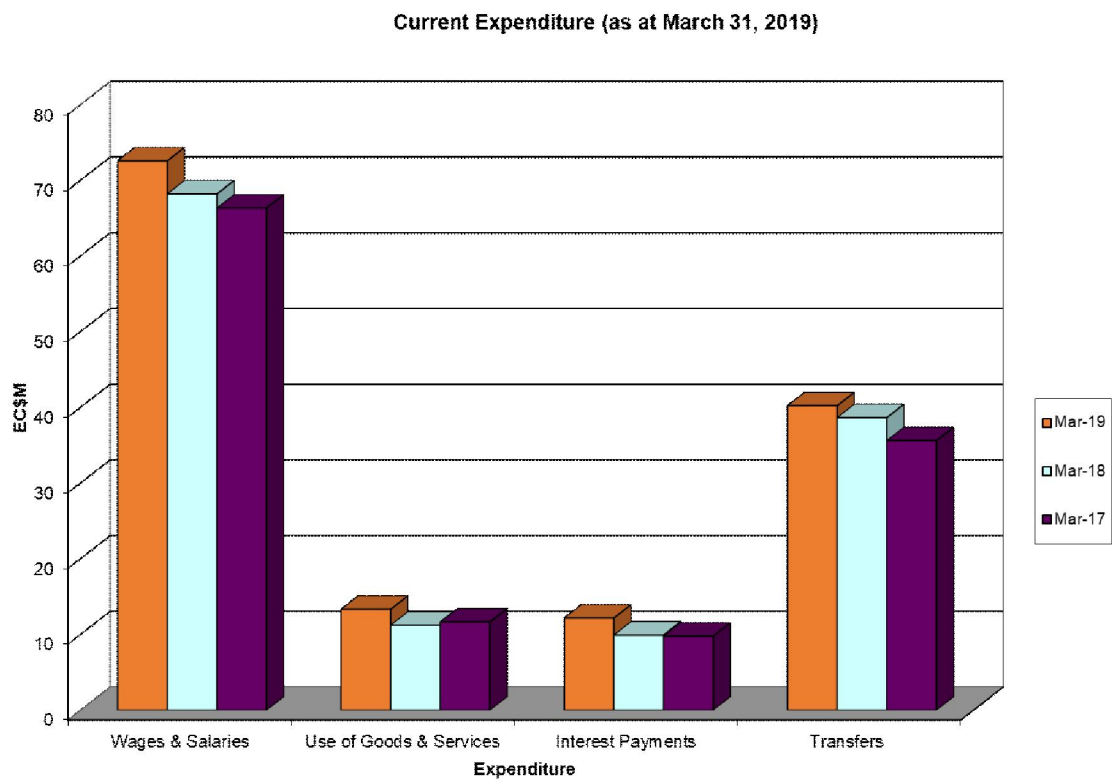

Revenue from Sale of Goods and Services grossed \$15.89 million, this represents a 3.9 percent improvement over the amount collected in 2018. Collections from most major subcategories under this heading increased during the period, with the more significant ones being; International Financial Services (24.1 percent), CIPO Registration Fees (35.7 percent) and Drivers Licence (5.8 percent).

Capital inflows as at March 31st, 2019 amounted to \$2.44 million, up 33.1 percent from the amount collected in the corresponding period in 2018 and due mainly to higher Grants receipts. Revenue from grants moved from \$1.69 million in 2018 to \$2.14 million in 2019.

Expenditure

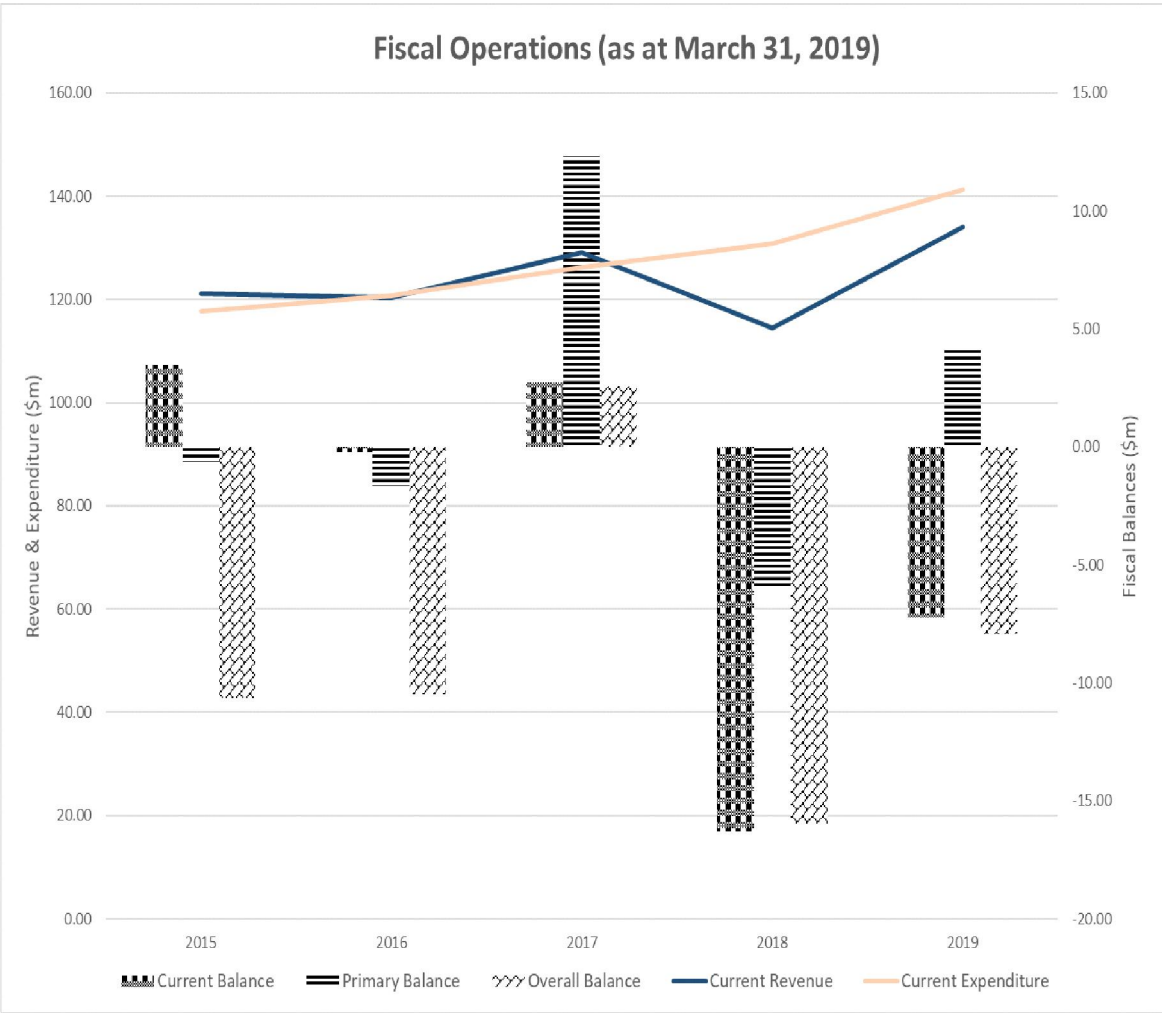

As at March 31st, 2019, Current Expenditure amounted to \$141.30 million. This figure represents an increase of 8.0 percent when compared to the amount spent during the same period in 2018. Payment of Wages and Salaries amounted to \$72.56 million and the Employer’s Social Security Contribution to \$3.05 million, these were responsible for the overall 6.4 percent increase in Compensation of Employees. The increased spending on Wages and Salaries was mainly due to the 1.5 percent salary increase paid to public servants on top of the 1.0 percent for the period July-December, 2018. Changes in increments and allowances would have also contributed to the growth in Wages and Salaries.

Figure 2: Items of recurrent expenditure as at March 31st, 2019

Interest Payments increased during the period by 22.8 percent to \$12.17 million as a result of higher payments on both the domestic and external components of the debt. External and Domestic interest payments increased by 20.9 percent and 24.2 percent respectively which rose by 24.2 percent and 20.9 percent respectively, due to the contraction of new debt. Outlays on Transfers increased by 4.0 percent to \$40.20 million mainly based on higher amounts expended on pension benefits (9.8 percent). Grants to Local Authorities and Social Welfare payments also increased by 3.5 percent and 10.3 percent respectively, during the period.

Figure 3: Fiscal Recurrent Activity March 2015-2019

Preliminary data indicates that Capital Expenditure for the quarter amounted to \$3.13 million, up from the \$1.50 million recorded for the same period in 2018. Capital Spending though improved remains relatively low mainly because of slow processing of journals to account for expenditure and similarly slow implementation of some projects.

Financing

Table 2 below summarizes the Central Government financing as at March 31st, 2019 with comparable numbers for 2018.
